Graduate Housing Contract

- a. A RESIDENT shall not bring onto a property any personal furnishings or belongings that the RESIDENT knows or should reasonably know are infested with bed bugs, including the personal property of the RESIDENT's guests.
- b. The RESIDENT is responsible to promptly report findings or suspicion of bed bug infestation to the UC Merced Residence Education Office at the Terrace Center, or call (209) 228-4663.

Bed Bug Appearance: Bed bugs have six legs. Adult bed bugs have flat bodies about 1/4 of an inch in length, and their color can vary from red and brown to copper colored. Young bed bugs are only about 1/16 of an inch in length, and they have almost no color. When a bed bug feeds, its body swells, may lengthen, and becomes bright red, sometimes making it appear to be a different insect. Bed bugs do not fly. They can either crawl or be carried from place to place on objects, people or animals. Bed bugs can be hard to find and identify because they are tiny and try to stay hidden.

- c. Life Cycle and Reproduction: An average bed bug lives for about 10 months. Female bed bugs lay one to five eggs per day and bed bugs grow to full adulthood in about 21 days. Bed bugs can survive for months without feeding.
- d. Bed Bug Bites: Because bed bugs usually feed at night, most people are bitten in their sleep and do not realize they were bitten. A person's reaction to insect bites is an immune response and so varies from person to person. Sometimes the red welts caused by the bites will not be noticed until many days after a person was bitten, if at all.
- e. Common signs and symptoms of a possible bed bug infestation:
 - Small red to reddish brown fecal spots on mattresses, box springs, bed frames, linens, upholstery or walls.
 - Molted bed bug skins, white, sticky eggs or empty eggshells.
 - Very heavily infested areas may have a characteristically sweet odor.
 - Red, itchy bite marks, especially on the legs, arms, and other body parts exposed while sleeping.
 - However, some people do not show bed bug lesions on their bodies even though bed bugs may have fed on them.
- f. For more information, see the web sites of the United States Environmental Protection Agency and the National Pest Management Association at <http://www2.epa.gov/bedbugs> and <http://www.pestworld.org/all-things-bed-bugs/>.
- g. RESIDENTs are required under the law to cooperate with inspections and to provide requested information that is necessary to facilitate the detection and treatment of bed bugs by the pest control operator.
- h. RESIDENT shall fulfill the responsibilities for room and apartment preparation before any scheduled treatment, including management of personal belongings and furnishings as described in the pest control operator's treatment checklist.
- i. RESIDENTs must vacate the room and/or apartment as required by the pest control operator for treatment purposes and shall not re-enter the unit until directed to do so.

16. MISSING PERSON NOTIFICATION POLICY

Students residing in on-campus housing have the option to identify individuals to be contacted by the UNIVERSITY in the event the student is reported missing. The confidential contact information will be accessible only to authorized campus officials and may not be disclosed except to law enforcement personnel in furtherance of a missing person investigation. If you would like to designate a confidential contact, visit the Office of Residence Education, 100 Terrace Center, or call 209-228-4663. Please note that if a student is under 18 years of age and not emancipated, a custodial parent or guardian will be contacted in the event the student is reported missing in addition to any confidential contact designated by the student.

17. COMPLIANCE WITH UNIVERSITY RULES

UNIVERSITY rules and regulations are established to provide a safe harmonious community for you and others to live. By entering into this contract, RESIDENT agrees to abide by the terms of this contract and the policies outlined in the [UC Merced Housing and Residence Education Handbook](#). The UNIVERSITY may take appropriate action, including termination of this contract, for conduct which is found by the UNIVERSITY to be in violation of any such rules or which is otherwise detrimental to the welfare of RESIDENTs, employees or the physical properties of the UNIVERSITY or which violates any federal or state law. RESIDENT's breach of this contract may result in exclusion from specified housing/dining areas, referral to the Office of Student Rights and Responsibilities, and/or the imposition of UNIVERSITY sanctions, including fines and administrative restrictions. It may also impact future eligibility to live on campus.

COVID-19 WARNING:

The UNIVERSITY's residence halls are congregate living facilities which may present a risk of exposure to COVID-19, a disease caused by a virus that can cause serious illness and death. To reduce your risk of infection, practice frequent hand washing, social distancing, face covering, and other measures recommended by public health officials. For more information, visit <http://www.cdc.gov> and <http://www.cdph.ca.gov>.

RESIDENTS are required to know and comply with local and state health orders, and agree to abide by the UNIVERSITY policy for face coverings and other physical mitigation measures that reduce the transmission of COVID-19 while living on campus and present in the other UNIVERSITY facilities stated below and in the Handbook (BP 20 – Interim Policies on COVID-19):

18. MOLD NOTIFICATION

Mold occurs naturally in the environment and there currently exist no federal or state standards for permissible levels of molds. The RESIDENT is required to take steps to control growth of mold and mildew by keeping the premises clean and well-ventilated, particularly when showering, bathing or washing dishes or clothes. The RESIDENT is required to notify the UNIVERSITY promptly by contacting UC Merced Housing Services Office at (209) 228-2293 about the existence of moisture, water leakage or overflow in or about the premises. 19. LEAD-BASED PAINT HAZARD NOTIFICATION

Housing built before 1978 may contain lead-based paint. Lead from paint, paint chips and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 housing, lessors must disclose the presence of known lead-based paint and/or lead-based paint hazards in the dwelling. Although the UNIVERSITY knows of no such hazards, federal law requires that lessees receive a pamphlet regarding lead poisoning prevention in pre-1978 housing, and a pamphlet regarding the ongoing renovation activities which may potentially disturb lead or lead hazards. RESIDENT acknowledges the receipt of these two pamphlets, entitled "Protect Your Family from Lead in Your Home" located at <http://www2.epa.gov/lead/protect-your-family>, and "Renovate Right: Important Lead Hazard Information for Families, Child Care Providers and Schools" located at <http://www2.epa.gov/lead/renovation-repair-and-painting-program>, which are incorporated herein by reference. NOTE: The existence of lead on the rental property is not, by itself, cause for termination of the tenancy.

20. ASBESTOS NOTIFICATION

Housing built before 1981 may contain asbestos. Any asbestos-containing material (ACM) has been encapsulated or removed, as specified by law. The ceilings are inspected by UC Merced facilities staff during annual housing inspections. However, disturbance or damage to certain apartment and residence hall ceilings may increase the potential exposure to these substances. RESIDENT or RESIDENT's guest shall not take or permit any action which in any way damages or disturbs the premises or any part thereof, including but not limited to piercing the ceiling by drilling or any other method, hanging objects, attaching or replacing fixtures, or doing any repairs to any portion of the ceiling, or undertaking activity which results in building vibration that may cause damage to the ceiling. RESIDENT shall notify the UNIVERSITY immediately in writing upon occurrence of any such damage or any other deterioration of the ceiling in the premises, including but not limited to flaking, loose, cracking, hanging or dislodged material, water leaks or stains in the ceiling.

21. PETS

UC Merced Housing Services is committed to supporting the UNIVERSITY's educational purpose and mission and works in partnership with the Student Accessibility Services providing students access to all levels of the residential experience. While pets are not allowed in UC Merced residential facilities, animals classified as service animals (per the Americans with Disabilities Act as Amended) or emotional support animals (per the Fair Housing Act and Section 504 of the Rehabilitation Act of 1973) are permitted. Fish in tanks under 10 gallons are allowed.

22. FIRE DETECTION & SAFETY EQUIPMENT

The residence halls are supplied with smoke detection devices. The detector(s) in this apartment and residence hall is in proper working order. Upon occupancy it shall be the RESIDENT's responsibility to regularly test the detector(s) to ensure that the device(s) is in operable condition. RESIDENT agrees to inform the UNIVERSITY immediately in writing of any defect, malfunction or failure of such detector. It is a criminal offense to disconnect or otherwise impair the function of this device. Tampering with fire detection or safety equipment will be subject to disciplinary action and termination of this contract. If building alarm is activated due to the RESIDENT's negligence or intentional act the RESIDENT will be charged a \$200 fee.

23. CONSEQUENCES OF BREACH OF CONTRACT

A breach of this contract by RESIDENT, including but not limited to delinquency in payment, may result in any or all the following actions: administrative action against RESIDENT's status in the UNIVERSITY, initiation of termination of tenancy proceedings and eviction.

24. SEVERABILITY

If any provision of this contract or the application thereof shall, for any reason and to any extent, be invalid or unenforceable, the remainder of this contract shall be enforced to the maximum extent permitted by law.
